

Looking to repair a MC9090-G / MC9190-G?

AUSTRALIAN-BASED EOL (End of Life)
Symbol / Motorola / Zebra repairs

Our MC9X90 series refurbish package deal fixes
ALL COMMON FAULTS

Contact us for a quotation

The refurbish package fixes most issues by replacing:

- Backup battery
- Hand strap and stylus, if worn or missing
- Scanner flex cable, if needed (the cause of most scanner-not-working issues)
- Trigger mechanism for gun devices
- Screen cracks, scratches, dents and sensitivity issues that can be resolved by replacement of the digitiser at the front of the LCD
- Complete functional testing
- Return shipping included.

We offer **FREE** inspection and quote – no charge for return if quote not accepted

Contact us: info@purposebuilt.com.au or +61 2 9906 7300

Also, bulk repair discounts are available!

If any of the below are required, we will quote you for new and/or used parts from our extensive collection.

MC9X90 Front cover (for charging faults)

MC9X90 Keyboard replacement

MC9090-G Scan engine replacement (rarely needed)

MC9190-G Scan engine replacement (rarely needed)

MC9090-G LCD** replacement

MC9190-G LCD** replacement

**LCD is the 'Liquid Crystal Display', found behind the front glass (digitiser) that creates the formal picture on the screen.
